PROFILE

Third-year CTIS undergraduate at İhsan Doğramacı Bilkent University (CGPA 3.90/4.00, 100% scholarship). Strong interest in software development, databases, quality assurance, and AI fundamentals, with hands-on experience through academic projects, industry-led training programs, and teaching assistant roles. Highly motivated, fast learner seeking a general tech internship in Türkiye to contribute to real-world, reliable software projects and grow in a collaborative engineering environment.

EDUCATION

İhsan Doğramacı Bilkent University, Ankara — **B.S. Information Systems and Technologies** **Class of 2028**

CGPA: 3.90/4.00 • 100% Scholarship • *Coursework:* Data Structures & Algorithms; Software Engineering; OOP Analysis & Design; DBMS; Linux; Networks; Backend & Frontend Development; Applied Data Analysis with R; Mobile Application Development; Software Validation Verification & Testing

Metropolia University of Applied Sciences, Helsinki — **ICT Summer School** **Aug 2025**

Coursework: Understanding Game Backend; Introduction to Machine Learning

Darüşşafaka High School, Istanbul — **Valedictorian** **2020 – 2024**

GPA: 97.03/100 • Ranked **1755th** (Top 0.05%) in YKS • IELTS Academic: 7.0

SKILLS

Programming: Java, JavaScript, C / C++, Python
Frontend: React, HTML5, CSS3, Tailwind CSS, EJS, Qt 6
Backend: Node.js (Express.js), REST APIs, JDBC
Testing: Playwright, Postman, Manual Testing, Test Case Design, Black-box & White-box
Databases: Oracle SQL, MySQL
Tools: Git, Docker, Linux, Maven, Flyway

EXPERIENCE

Commencis, Remote — **Software Testing Trainee** **Mar 2026 – Apr 2026**

- Selected for a 6-week Software Testing Camp covering **SDLC** test processes**, black-box/white-box** techniques, continuous reporting, and **non-functional testing** (performance, security).
- Gaining hands-on exposure to **test automation** frameworks and **CI/CD** integration in collaborative sessions.

Google AI & Technology Academy, Remote — **AI Trainee** **Dec 2025 – Jun 2026**

- Scholar in an 8-month AI Track covering **LLMs**, **FastAPI**, **VCS** and **Software Project Management** (P2P sessions, bootcamps, hackathons).

İhsan Doğramacı Bilkent University, Ankara — **Undergraduate Teaching Assistant** **Oct 2025 – May 2026**

- Assisted **30+** students in labs for Intro. to Prog. with C (CTIS 151) and **20+** students for Data Structures & Algorithms (CTIS 152).

PROJECT WORK

- **Market Waste Reduction System – UYGUN Markets (2026):** Multi-user full-stack app (Node.js/Express, MySQL, JS, EJS, HTML/CSS); role-based routes, RESTful APIs, session auth; MVC architecture; Dockerized MySQL; tested flows with Postman and Playwright.
- **AROS Loot Shop (2025):** UML + Java/Swing implementation using OOP, collections; MVC architecture; Git/GitHub collaboration.
- **Simple TODO App (2025):** Java + JDBC CRUD backend with H2; DAO layer; manual SQL queries.
- **Personal Portfolio (2025):** Next.js/React/Tailwind CSS responsive site; deployed on Vercel with custom domain; SEO basics; Git/GitHub.
- **Tile-Clicking Game (2025):** HTML/CSS/JavaScript game using DOM API; built interactive gameplay, score tracking, and high-score logic.
- **AI-Based Garbage Detection (2023):** YOLOv3&OpenCV classifier; custom datasets; ranked 2. among 50+ schools (MEF AI Competition).

CERTIFICATIONS & ACHIEVEMENTS

- Amazon University Engagement Program 2025 – SDE Track (Frontend, Backend, DevOps)
- HackerRank Java Certificate
- CCNA: Introduction to Networks
- Foundations of Project Management - Google Careers (Coursera)
- 30. Dr. İbrahim Arıkan MEF High School AI Competition - Second Place
